THE SILENT INVASION
Discussion Draft

Small Island Developing States and Invasive Alien Species: BUILDING CAPACITY

Many small island developing states (SIDS) acknowledge the significant challenges posed by invasive alien species (IAS) but lack the capacity to address these threats. SIDS face a myriad of other pressing concerns, such as economic development, public health, sea level rise and extreme weather events to which IAS presents an additional demand on an

the risks and sources of invasions, and to act in response to these threats. SIDS can enhance their human, scientific, technological, organizational, and institutional capacities to achieve these goals by availing themselves of supportive legal structures, additional financial resources, increased regional coordination and technology exchange, and existing capacity enhance
